

**Company Industry** Global Insurance Group

**What does the company do?**

Provides insurance and reinsurance products. The company offers a range of property, casualty, and specialty insurance for corporations, professional firms, and financial institutions in the United States, Canada, and internationally. It provides accident and health, and lender insurance products. The company serves construction, energy, healthcare, and real estate industries.

**What does CSSI do for them?**

- CoreIntegrator for Accounts Payable Automation
- Custom programming applications that integrate with the CoreIntegrator system.
- Microsoft GP

**How do we make their life easier?**

By assisting with numerous business areas CSSI has been able to streamline many daily tasks within the customer's operations. CoreIntegrator, as always, helps process documents faster and reduces the amount of keying and rekeying into Great Plains. The custom application for time & billing reduced the amount of time they were waiting for vendor invoices. Microsoft GP is the backbone of the Accounting department.
