

Planning Maestro is a cloud-native platform that delivers a competitive advantage through the ability to easily budget, forecast financial performance, analyze results and share critical information across the business.

## Intelligent Planning & Analytics for the Modern Finance Office

Centage has a long history of developing and delivering exceptional software for small and mid-sized businesses. By listening to CFOs and financial experts and gathering insights from thousands of our own users, we've built an intelligent solution, Planning Maestro, that truly breaks the mold for financial planning and analytics.

### About Planning Maestro

Planning Maestro offers a better way to plan, budget, forecast and report financial performance by enabling finance teams to see into the future, test the impact of different scenarios and make faster decisions with confidence.

**PLANNING**  
Improve visibility with better insight into the health of the business. Integrate data from multiple sources, making it easier to know what to do first and why.

**FORECASTING**  
Forecast the impact of multiple scenarios. Quickly identify where, when and why actuals differ from plan, so you can take appropriate action.

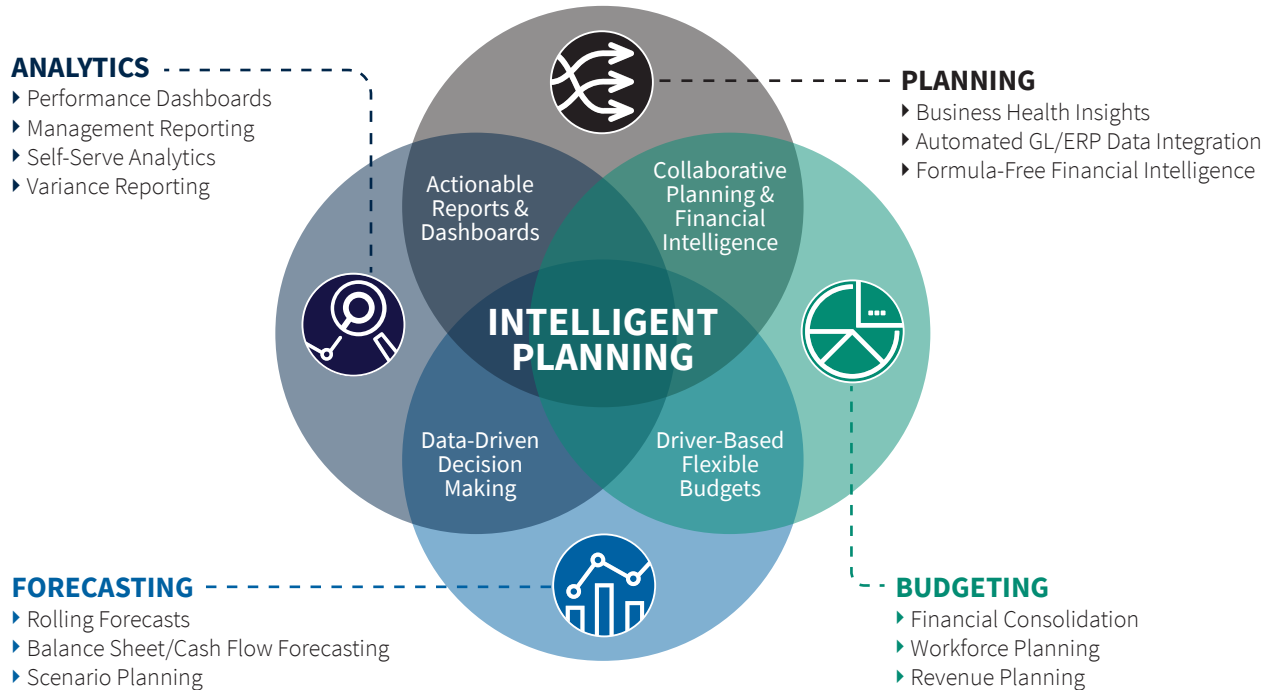

**BUDGETING**  
Build a driver-based budget model in days. Test multiple scenarios, generate accurate, automated forecasts and enforce your chart of accounts.

**ANALYTICS & REPORTING**  
Build and deliver timely and robust data in visually meaningful reports and dashboards, which enables business managers to make better decisions, faster.

Planning Maestro streamlines your entire planning process, delivering sophisticated financial intelligence that empowers you to make faster, more informed decisions, so you can react quickly to market changes, take intelligent risks and capitalize on new opportunities.

Planning Maestro was designed to take advantage of modern technologies and advances in cloud computing and is optimized for performance, scale, integration and automation.

- ▶ **AUTOMATION.** Automate and streamline routine tasks, significantly reducing the time needed for ‘busy work.’
- ▶ **VISIBILITY.** Integrate and normalize data from multiple sources, which ensures accuracy and increases your line of sight into current and future financial health.
- ▶ **COLLABORATION.** Increase collaboration with operational stakeholders across the business by quickly testing assumptions and delivering accurate forecasts with practical recommendations that are backed up by rock-solid data and insights.
- ▶ **AGILITY.** Connect virtually any data source — on-premise or in the Cloud, creating a single source of truth makes it easier to know — with confidence — what to do and why.
